

2012 Qualification Rules and Guidelines – 2/3/2012

Due to an unprecedented number of entries for the 2012 Pikes Peak International Hill Climb a qualifying procedure will be implemented for the 90th running.

Qualification Procedure:

- Through the qualification procedure, officials will be limiting the field to approximately 80 cars and 100 bikes.
- Two qualification procedures will potentially be used to limit the field:
 - 1) Rule Book Part VII 8.2.5: PPIHC reserves the right to disqualify any competitor who qualifies outside of a percentage (115%) of the fastest time.
 - 2) If the 115% rule does not limit the number of competitors to the ideal numbers; a percentage of each division will then be eliminated (approximately 20%-25%) based on qualification times.
- Qualification times will be based on the competitor's best time on the bottom section during practice week. Please refer to the race week schedule for more information.
- All competitors will be allowed to complete all three days of practice regardless of qualifying position.
- The field for race day will be posted on Friday PM after qualification.
- PPIHC reserves the "Promoters Option" and can add to the field when deemed necessary for the best interest of the event.

Please refer to the Rule Book Part VII (Entries) page 14 and Part VIII (Qualification/Race Day) page 15 for further information regarding qualification.
